Weymouth, Dorset, DT4 7HT** (United Kingdom)

FAMILY HISTORY RESEARCH ORDER FORM – Page 2

Research Details

Before you complete this form you should gather together all your family documents and, if possible, talk to older members of your family. It is standard practice in genealogy to start with the current family and move backwards in time – to work from the known to the unknown – and that is what we will do.

We do not want to waste your money (and our time) looking for things that you already know, so it is important that you give us as much information as possible. If you already have reliable information about your parents or grandparents it would be sensible to name one of them, rather than yourself, as the starting point for our research.

Please give us details of the person whose ancestry you would like us to research.

(Give as much information as you can, but please make it clear if you are making a guess.)

Full Name:
When and where were they born?
When, where and whom did they marry?
If no longer alive, when and where did they die and at what age?
Do you have copies of any of the following documents for this person? (please tick) Birth Certificate <input type="checkbox"/> Marriage Certificate <input type="checkbox"/> Death Certificate <input type="checkbox"/>
Additional Information: Please give us as much information as you can about this person's parents, grandparents, siblings etc, or any other family information that might help our research.
Special Instructions: Unless instructed otherwise, we will concentrate our research on one line of ancestry (surname). If you would like us to include additional lines, please give your instructions here.
